

Take control of  
your lymphedema.

**ENTRE™ SYSTEM**

PNEUMATIC COMPRESSION THERAPY

**Tactile**  
MEDICAL®

# The Entre system.

## Effective at-home treatment to reduce swelling associated with lymphedema.<sup>1</sup>

The Entre system delivers pneumatic compression — a therapy proven to assist in the successful home management of chronic swelling and venous ulcers associated with lymphedema<sup>1</sup> and chronic venous insufficiency.

With multiple settings and garment options, the Entre system delivers customized treatment to meet your needs.

### KEY FEATURES

- Soft, comfortable garment fabric.
- Easy-grip features provide additional assistance when applying and removing garments.

- Multiple pressure modes and numerous garment options ensure an accurate fit and individualized treatment.
- Eight-chambered garments offer a more targeted treatment.
- Treat up to two affected limbs and decrease overall treatment time.

LOWER EXTREMITY TREATMENT

UPPER EXTREMITY TREATMENT

## Improved health at-home.

In a recent clinical study,<sup>1</sup> patients treating cancer-related lymphedema with a pneumatic compression device like the Entre system experienced a:

**21%** reduction in cellulitis incidence

**29%** reduction in hospitalizations

**32%** reduction in clinic visits

These improved health outcomes helped to significantly reduce overall treatment costs for patients.

### WE MAKE ORDERING EASY!

Entre is available by prescription only and is covered by many health plans. Once prescribed, we will work with your healthcare team and insurance provider to process your order.

To learn more, visit [tactilemedical.com](https://tactilemedical.com) or call 833.3TACTILE (833.382.2845).

## The Entre system works.

I had been dealing with lymphedema for about one year and was prescribed the Entre system to help manage my swelling. I noticed immediate relief after using the system for the very first time, and have since made a point to use it every day — even when I travel.
