Tactile
MEDICAL
HEALING RIGHT AT HOME

Smaller. Lighter.
More portable.

Now that's

nimbl™

Lymphedema treatment that lives up to its name.

Tactile
MEDICAL

Compact care, anywhere.

Now that's **nimbl**™

Welcome to lymphedema treatment in a smaller, travel-friendly package suited to your active lifestyle—so you can more easily manage your condition on your terms.

The Nimbl pneumatic compression device (PCD) is a 60-minute daily treatment designed to provide relief for your lymphedema. Nimbl applies a gentle squeezing action that directs lymphatic fluid away from the affected area toward healthy, functioning regions of the body where it can be naturally absorbed and eliminated.

“
I’m excited that it’s smaller,
and I can travel with it
more easily than what I’m
doing right now.”

REGINA M.
ENTRE PLUS USER – UPPER BODY

Comfortable and Effective

Unique inflation and deflation provides a more comfortable treatment while maintaining clinical results.

Remove Quickly with Active Deflation

Active deflation helps you remove your garment quickly so you can store Nimbl fast and get on with your day.

User-Friendly

Simple, intuitive interface with a two-button design for easy operation.

Nimbl truly lives up to its name.

Nimbl is designed to give you portability and freedom. The compact and lightweight controller, the reduced tubing length, the sleeker design, the rechargeable battery—Nimbl burdens you less and frees you more.

40% smaller

than other PCDs with similar power. Small enough to fit in an overnight bag or tuck away after treatment.

Less than 2 lbs

Nimbl weighs less than a hardcover book, so you can easily move it to have your treatment where you like.

100% more portable

Nimbl has less hoses and a compact design, making it the smallest PCD available. This allows you to take your treatment anywhere.
